PAST PERFORMANCE (LAST 5 YEARS)

Department of Energy - Office of Energy Efficiency and Renewable Energy – SUBCONTRACTOR – Prime contractor: Accenture

Contract# 89303019AIM000005 **Amount:** \$62,412,919.69 **- Period:** 07/12/2017 – Present

Successfully developed and enhanced custom SharePoint/Nintex applications, led migrations, upgrades, and patches for SharePoint infrastructure. Envizage responded to issues with current SharePoint environments, provided end-user support to include issues resolution, troubleshooting, and end user training for the client and other stakeholders. Envizage provided input to clients, management, and other stakeholders on future and existing SharePoint/Nintex/Power Apps solutions. We also diagnosed, and fixed errors related to SharePoint/Nintex/Power Apps workflows, made updates, streamlined existing applications, and developed/created new workflows. Envizage designed, developed, deployed, and maintained new and existing SharePoint/Nintex solutions using client-side technologies and Platforms such as SPFX, React, and JavaScript. We designed, developed, deployed, and maintained Business Intelligence Dashboards using SPFX, React JS, and Excel Services. We also migrated legacy SharePoint apps to use Modern UI (User Interface) design using SPFX and React JS /Angular 8. In addition, we maintained Nintex Forms & Workflow solutions and Setup and Maintained Site Permission Inheritances. We configured and managed Site, Workspaces, Library, and List Security. We wrote, executed, implemented, and maintained SharePoint Server-side solutions including event receivers, timer jobs, and customactions using C#/Visual Studio.

POC: Bonnie Sirico, EERE SharePoint Team Lead, bonnie.sirico@hq.doe.gov, 301-693-8202

US Census Bureau, Intranet Support and SharePoint Services Branch SUBCONTRACTOR – Prime contractor: ActioNet

Contract# DOCYA132315BU0010 **Amount:** \$2,780,522 **Period:** 09/28/2017 – 09/24/2021

Successfully developed a SharePoint/React/Angular based Job Rotation tool for the Talent Acquisition Program Branch which allowed Census Bureau employees to take advantage of permanent/detailed opportunities. Successfully developed a cloud-based repository of program level metadata for each of the Census Bureau's business surveys which featured an inventory of all the Census Bureau's surveys, artifact management, and reporting capability. Successfully developed a cloud-based process management system for Business Process Management Team to provide access to all documented processes within the bureau which allowed each process to be managed within the tool, as well as provide a graphical business model. Successfully developed a modernized survey data collection and tracking tool for the Economic Management Division which was used to provide real-time data collection information for all the Census Bureau's surveys.

POC: Jeffery Jones, Section Chief, jeffery.jones@census.gov, 301-763-3172

US Census Bureau, IT Program Management Office – SUBCONTRACTOR - Prime contractor: Attain, Inc

Contract# DOCYA132315BU0012 **Amount:** \$21,616,255 **Period:** 01/21/2016 – 05/28/2020

Successfully developed a SharePoint/React/Angular based solutions for the IT PMO to store and share all PMO related SOPs, policies, and other informational documents. The system received an Excellence in Innovation award from the Department of Commerce. Provided SharePoint & Project Server system administration support, development, and training services to assist in the PMO's Portfolio Management Initiative. Created several custom SharePoint & Power Apps Applications and SSRS/Power BI/Tableau Reports & Dashboards. Led SharePoint Online migration initiative from SharePoint 2010 environment.
